PROJECTS

To-Do List 🔗   19/08 – 25/08/2025
Web Application
A classic task management application built using vanilla JavaScript to handle all core logic. The front-end is styled responsively using **HTML, CSS, and Bootstrap** components. Users can seamlessly **add, delete, and mark tasks as complete** on a visually clean interface. This project effectively demonstrates fundamental DOM manipulation and front-end state management.

Responsive E-Zine 🔗   01/08 – 07/08/2025
Complex Print-Style Layout
A demonstration of advanced front-end layout techniques by building a complex, print-style online magazine (**E-Zine**). This project leverages **CSS Grid** to create a robust and flexible structure, including intricate column and row placement. Successfully achieved **full responsiveness**, ensuring optimal display and readability across all device sizes and screen resolutions.
